To Assemble:

Before you start to assemble your tree, choose a location near a wall outlet. Make sure the tree stand is placed on a level surface.

Step 1: Choose a location near a wall outlet, insert the legs (D) of the tree stand and lay the stand on the floor, slide the locking disk of the tree stand down until it snaps into place.

Step 2: Insert the bottom section of tree body (C) into the tree stand, tighten the three thumb screws evenly and make sure the trunk stays straight.

Step 3: Insert the middle section of tree body (B) into the bottom of tree body (C), then take the top section (A) of the tree and insert it into the middle section (B) of the tree.

Step 4: Shape the branches to your preference by working from the bottom to the top. When shaping the branches start with tips farthest from the pole. One to the right, one to the left, and one at the center of the main stem.,slightly upseep all branch tips for a uniform look.
