**To Assemble:**

**Step 1:** Insert the tree middle (B) into the bottom (C) of the main body

**Step 2:** Insert the tree top (A) into the middle (B) of the main body

**Step 3:** Shape the branches to your preference by working from the bottom to the top, When shaping the branches start with tips farthest from the pole. One to the right, one to the left, and one at the center of the main stem.,slightly upseep all branch tips for a uniform look.

**Step 4:** Plug the cord into wall outlet.

## Operation:

After the plugs are plugged into the wall outlet your entire tree should be lit. If some bulbs do not light, search for any loose plugs, broken, loose or missing bulbs that may have caused the problem. Replace bulbs promptly with replacement bulbs provided in order to maintain the performance and life expectancy of your tree.

**Step 1:** Connect the light strings of the tree together and plug the power cord into a wall outlet.

**Step 2:** If a bulb is blown, replace the faulty bulb following the diagram below. Spare bulbs are included for easy replacement..

## WARNING-Risk of Fire and Electric Shock:

1. Read all instructions and warning tags included with this tree.
2. For Indoor and Outdoor Use.
3. Do not place near gas or electric heaters, radiators, fireplaces, or other similar sources of heat.
4. Place on a level, hard, flat surface; do not place where tree is likely to fall or on thick carpeting.
5. Do not use candles on tree.
6. After assembly and adding decorations, make sure the tree is stable. If stable, shift the weight of the decorations, and use support wires to walls and/or window frames (make sure they are secure also).
7. Do not overload extension cords or power strips, see ratings on those devices and check the rating labels on the tree for compatibility.
8. Do not install near fountains, bathtubs, sinks, pools or other areas of standing water.
9. Only use this product with extension cords rated for indoor and outdoor use.
